The image shows three separate screenshots of a Windows desktop environment, each featuring a terminal window. The top terminal window has a black background and displays the command 'git config --global user.name "rakshana"'. The middle terminal window also has a black background and displays the command 'git config --global user.email "rakshana3214@gmail.com"'. The bottom terminal window has a black background and displays the command 'git config -l'. All three terminals are running on a MINGW64 shell. The desktop taskbar at the bottom of each screenshot shows various icons for common Windows applications like File Explorer, Edge, and Mail. The system tray in the bottom right corner of each window shows the date and time as 28-10-2022 and 14:11.
